

HOSTEDBIZZ CLOUD SERVERS

BUSINESS IS BETTER IN THE CLOUD

HostedBizz's 100% Canadian cloud offers superior performance, while enabling your organization to adopt cost-effective, complete, enterprise-grade cloud solutions

The HostedBizz Price-performance Advantage

In a recent benchmark study, HostedBizz outranked Amazon Web Services and Microsoft Azure by 52% in overall compute performance. In fact, HostedBizz outperformed in most categories tested, including overall multicore performance, disc I/O, throughput and price. Each set of tests were set against solutions of comparable price points.

+52%
compute performance

The HostedBizz Cloud enables organizations to access data from anywhere, at anytime. Remote workers can securely access their data and work collaboratively from anywhere where there is an internet connection. The HostedBizz Cloud optimizes utilization, while reducing CAPEX, making it simple to scale both up and down as required, without the need for added hardware and infrastructure costs. Since the HostedBizz data centers all reside in Canada, we offer geographic redundancy and guarantee data sovereignty.

HostedBizz's Cloud Strategy

HostedBizz understands that migrating to the cloud can be complicated. We assist customers in building comprehensive, multi-step migration plans that alleviate the risk of downtime. Our flexible cloud infrastructure enables clients to accommodate their unique business requirements, no matter where they are in their cloud journey.

According to our customers, our compute performance ranking, elastic pricing model, and our expertise in a full range of hosted cloud solutions are what sets HostedBizz apart from other cloud service providers. We are proud of the level of service that our clients receive from us.

HostedBizz's state of the art UTI Tier III Data Centers are 100% Canadian Owned and Operated

Certifications and Compliance:

SSAE 16 Type II, SOC1, SOC2, SOC3

CSAE 3000 Type II, CSAE 3416 Type II, CSAE 5025

ISAE 3402, ISAE 3000

GLBA

PCI DSS

ISO 27001

GoC Protected B

GoC Controlled Goods

Power and Backup:

Redundant sub-station feeders, each upgradeable to 10MW capacity

Medium & high-density power designed for 5-15kW per cabinet N+1 continuous duty generators with onsite fuel storage

Dual power distribution to rack loads in "A+B" configuration

Network:

Multiple isolated entry points into Data Centre facility from multiple Tier 1 carriers

Physically Isolated carrier interconnect rooms

Redundant drops from multi-homed Internet service

Complete, Secure Cloud Server Environments

Whether you're looking to deploy Windows, Linux or bare metal servers, HostedBizz offers penalty-free scaling and multiple tiers of storage. Our high-performance storage tiers are built and managed on the industry standard hypervisor VMWare, so you can take control of your virtual machines while we lighten the burden of infrastructure costs.

All HostedBizz data centers are 100% Canadian owned and operated. Each location has monitored climate and humidity control, and is secured by 24 x 7 manned entry points, integrated with 2-factor biometric authentication.

We provide VMware vCloud Director access into the HostedBizz Cloud. This provides our clients with a vCenter type access into their cloud environment. vCloud Director provides self-service capabilities. Alternatively, customers can reach us at the HostedBizz support desk and we will make any changes that are required.

The HostedBizz Advantage

HostedBizz cloud hosting provides state-of-the-art facilities and expert technical resources to enable streamlined cloud infrastructure deployment. Our clients benefit from 24x7x365 support and flexible no penalty, no term billing contracts. In addition, we offer a transparent, pay-as-you-go billing model as well as a suite of comprehensive, cloud management tools.
